

DCID 1/2 User Survey

17 Mar 82

National Intelligence Council  
(Name of Organization)

1. What is the nature and frequency of your organization's use of the U.S. foreign intelligence requirements categories and priorities that are promulgated in the Attachment to DCID 1/2?

This organization does not make use of the DCID 1/2 priorities. It is often engaged, however, in the exercises that lead to changes in the priorities.

2. What changes in DCID 1/2 content and/or procedures would make it more useful to your organization?

Since the situation is as described in our response to #1, we have no suggestions for changes. It is our impression that DCID 1/2 is useful for two purposes: 1) to demonstrate political changes in emphasis, e.g., human rights; 2) to allocate intelligence resources on the margin, e.g., attache placements and NSA coverage. In the latter connection the focus is largely on the "4's" and "5's", where discretionary resources run out.
